**Why this trip?** The Dominican Republic suffers from poverty both physically and spiritually. While the church has experienced some growth, youth are considered one of the less evangelized groups in the country. Foreign mission efforts are especially needed among children at risk. Kids Alive® provides shelter, food, education and Christian guidance for children who will become mature adult Christians in the future. Kids Alive® depends on help from U.S. groups to advance its ministry. For more information on Kids Alive® visit [kidsalive.org](http://kidsalive.org)
